

ENVIRONMENTAL SUSTAINABILITY STATEMENT

Hyatt's purpose is to care for people so they can be their best. As a global brand, we recognize that caring for the planet is integral to the wellbeing of all people. To that end, we are committed to complying with regulations and working with our owned, managed, and franchised properties in tackling today's pressing issues including climate change, water stewardship, waste and circularity, responsible sourcing, and the protection of biodiversity and local environments so that destinations around the world are vibrant for our guests, colleagues, and communities.

We are focused on the following objectives.

1. **Climate change and water conservation:** Accelerate climate and water action by elevating efficiency measures, prioritizing water conservation in drought-prone areas, and increasing the use of renewable energy and grey water.
2. **Waste and circularity:** Reduce waste generated at properties – including food waste and single-use items – and increase recycling and composting.
3. **Responsible sourcing:** Advance responsible sourcing of products and services associated with concerns for climate change, human rights, public health, deforestation, water risks, waste, resource scarcity, biodiversity, and animal welfare.
4. **Thriving Destinations:** Prioritize the resilience of our global communities by respecting local environments and cultural heritage; helping to protect biodiversity and animal welfare; minimizing pollution; and advancing climate change resilience.
5. **Awareness and Collaboration:** Accelerate collective action and innovation across colleagues, guests, customers, owners, operators, suppliers, and our communities by elevating the understanding of issues and opportunities for change.
6. **Measuring and Reporting:** Provide transparency to internal and external stakeholders supported by clear data.
7. **Management:** Advance environmental stewardship from the leadership level and employ management systems that prompt continuous improvement.
